

Available Variants:

1. Ultrasonic Cleaner - 3 Ltr
2. Ultrasonic Cleaner - 5 Ltr
3. Ultrasonic Cleaner - 8 Ltr
4. Ultrasonic Cleaner - 11 Ltr
5. Ultrasonic Cleaner - 24 Ltr

Description:

- The Ultrasonic Cleaner is designed for efficient and thorough cleaning of laboratory instruments, precision components, glassware, and industrial parts using high-frequency ultrasonic waves. It features a durable stainless steel construction, digital temperature and timer controls, ceramic heating technology, and high-performance transducers for reliable cleaning performance. Available in multiple capacity variants ranging from 3 Ltr to 24 Ltr, it is suitable for laboratories, research facilities, medical applications, and industrial cleaning processes.

Salient Features:

1. Inner tank manufactured from SS 304 stainless steel.
2. Outer body constructed from durable stainless steel.
3. Digital RED LED display for easy operation.
4. Temperature control with timer function.
5. Ceramic heaters provide improved and uniform heating performance.
6. High-performance ultrasonic transducers ensure effective cleaning.
7. Moisture-proof PCB for enhanced durability.
8. Built-in overheat protection for safe operation.
9. Cooling fan for efficient heat dissipation.
10. Drain valve provided in larger capacity models.
11. User-friendly design for convenient operation.
