GO-NOGO HEIGHT GAUGE - 400 MM - FOR GLASS BOTTLE

For rapid assessments of height, a Go/No-Go gauge is designed for height verification. A gauge has two reference points:

- **Go Side:** Confirms the bottle is not shorter than the minimum acceptable height.
- **No-Go Side:** Ensures the bottle does not exceed the maximum permissible height.

By placing the bottle against these reference points, inspectors can quickly determine if the height is within the specified range.

- Range - 0-400 mm.
- Resolution - 1 mm.
- Made of mild steel material with heavy 20 mm thick black granite stone base.
- Gear arrangement for height adjustable with locking arrangement.
- Laser marked engraved Scale-2 nos.
